

Meritor Parts

Meritor Parts - The Meritor Business is a leading global dealer established upon 100 years of custom of service and quality. Meritor specializes in integrated systems with various modules and parts to the original machine makers and aftermarket equipment in the transportation and industrial sectors.

Meritor values the requirements of their customers to guarantee their success while priding itself in the company's unique energy and believes this output of energy to be their competitive advantage in their worldwide operations. Meritor begins with a philosophy which values diversity of people and their broad thought processes. Operating in 19 nations and employing more than 11,200 individuals, Meritor promotes innovation and collaboration amongst a team of knowledgeable professionals.

By just employing future focused staff, Meritor strongly believes these top-caliber workers will be able to rapidly get used to to changing environments and demonstrate the commitment and performance needed to achieve results in the competitive materials handling trade. The company empowers their teams to make sound business decisions in order to enhance the overall success of the company. In return, Meritor offers all their staff different opportunities for professional and personal development.

The Advanced Engineering team is on the forefront of systems engineering and components. This consists of drivelines, axles, braking and suspension systems designed for medium and heavy duty trucks, military vehicles, trailers, off-highway vehicles and buses. The Meritor Advanced Engineering team is developing. They launched a new technical center in Bangalore, India in September 2009 to be able to lead their advanced product development initiatives that represent the whole Asia Pacific region. This team is even responsible for supporting the requirements of all their international engineering workers.

Meritor's dynamic and customer focused Quality team is devoted to ensuring optimum processing at their production plants and aftermarket distribution facilities that are located around the globe in 19 nations and in 5 different continents.

The supplier development network is specifically situated in order to support new business development. Regional teams are supported by worldwide quality systems, centralized specialties and initiatives in Six Sigma and Materials Engineering. Meritor's growing Six Sigma program encourages a fact-based, data-driven method to decision making within each and every aspect of the company. The DFSS or otherwise known as Design for Six Sigma ensures product reliability within each region. The team is also comprised of transactional Green Belts who utilize Six Sigma tools to business processes and implement lean methods.
