

Clark Forklift Part

Clark Forklift Part - At this time, there are over 350,000 Clark forklifts performing globally, and upwards of 250,000 in commission in North America alone. With five major lines across the world, Clark is proud to be one of the most expansive companies in the industry. Heavy duty trucks ranging from 1,500lb to 18,000lb capacities, dual fuel, gas, LPG, hand powered trucks, narrow-aisle stackers and electric riders are some of their specialties.

Clark Totalift has 20 exclusive makes of forklifts, with components covering more than 120,000 specialized items for all of its automated equipment. Your local Clark Dealer is your complete source for availability of all your parts requirements provided by Clark Totalift.

Clark features a extraordinary Parts Distribution team. The parts warehouses are conveniently situated in Changwon, South Korea and Louisville, Kentucky to ensure exceptional service to both their customers and their dealers. For over 90 years, Clark has exceeded industry standards, being one of the most actively advancing manufacturers. Driven to supply the highest level of value and service to our customers, Clark remains on the leading edge when it comes to improving efficiency and benefiting performance.

Clark Totalift has a very amazing worldwide support network. With over 550 locations globally, dealer representation in over 80 countries and 230 locations in North America, their high level of dedication to their clients predominates the material handling market.

Clark proudly remains an progressive leader of the industrial equipment industry, revolutionizing protection features such as the worker restraint system. This exceptional commitment to safety is now a customary feature on every lift truck.

Clark has a relentless goal to have the No. 1 quality system in the industry which is demonstrated by their commitment to ISO standards. Clark, is the first manufacturer of forklifts and lift trucks to be internationally certified with quality standard ISO 9001 in all of its manufacturing plants. Also, the ISO 14001 Environmental Stewardship System certificate was awarded to Clark's Korean facility in 2001. This paramount achievement allows Clark to be prepared for any number of environmental limitations, thus placing them in a prevailing market position.

Clark has chosen the system of "Lean Manufacturing" at all of its assembly plants for the reason that this system is extremely economical and enables minimal use of resources. Established to guarantee maximum proficiency, this system is designed to discover and acknowledge the most effective ways for manufacturing plant management. Clark has completed this transition of its Korean facility. COPS which is Clark Optimized Production System, equally focuses on quality of product and services and manufacturing efficiencies.

Clark's product engineers and suppliers join together to enhance the effectiveness and excellence of their merchandise while minimizing expenses. The contemporary value engineering program combines innovative product development and offers improved client support and service within the industry.
