

Concrete Hopper

Concrete Hopper - This particular attachment is a self-dumping hopper which automatically activates to unload when bumper release touches the side of a dumpster. As soon as dumping is finished, the hopper returns to a locked and upright position. This piece of machinery is even presented along with a cable that allows operation from the seat of the lift truck in order to have the alternative of manually unloading the hopper. There is a locking chain provided so as to lock the hopper to the tine truck. This particular product is made with reliable and consistent robotic welds for utmost strength. The lift truck dumping hopper even has a blue powder coat finish so as to maintain durability.
